

VISHAL YADAV

B.E. Computer Engineering

Mumbai, Bhandup | 📞 +91 8591909421 | ✉️ yadavvishal00101@gmail.com | 💼 [linkedin.com/vishalyadav01](https://www.linkedin.com/in/vishalyadav01) | 🌐 [vishalyadav-git](https://github.com/vishalyadav-git)

Education

Lokmanya Tilak College of Engineering (LTCE)

2022 – Present

Bachelor of Engineering in Computer Engineering (CGPA: 8.85/10)

Navi Mumbai

Coursework & Skills

- **Core Coursework:** Data Structures & Algorithms, OOPS, DBMS, Computer Networks
- **Backend:** Node.js, Express.js, REST APIs
- **Programming:** Java (OOPS), JavaScript, SQL, C
- **Databases:** MongoDB, MySQL
- **Frontend:** HTML5, CSS3, React.js
- **Tools:** Git, GitHub, Postman, VS Code, Netlify, Vercel, Canva, Figma, MS Office

Experience

Codec Technologies Pvt. Ltd.

Jul 2025 – Aug 2025

MERN Stack Developer Intern

Virtual / Mumbai

- Worked on a **MERN-based full-stack internship**, contributing to an E-Commerce platform and Job Portal system.
- Developed and integrated **RESTful APIs** using Node.js, Express.js, and MongoDB.
- Built responsive front-end components in React.js and collaborated using Git and GitHub.

Projects

SurakshaX Detection

Aug 2025 – Nov 2025

- Built an integrated real-time hazard monitoring platform that detects and visualizes urban and coastal hazards such as cyclones, floods, oil spills, and waterlogging using social media analytics and citizen-driven reports.
- Implemented a crowdsourced reporting module allowing citizens to submit hazard information via a responsive web interface, ensuring timely and community-driven updates.
- Developed an interactive React.js dashboard with Node.js backend and MongoDB database for real-time visualization of alerts, reports, and hazard trends.
- **Tech Stack:** Python, React.js, Node.js, Express.js, Apache Kafka, Apache Spark, MongoDB, Tailwind CSS, Leaflet.js.

WanderLust (Property Rental & Listing Platform)

Jan 2025 – Mar 2025

- Built a full-stack property listing and rental web platform, enabling users to explore, add, review, and manage travel accommodations through a secure and user-friendly interface
- Implemented authentication and authorization using Passport.js, enabling secure login, role-based access control, and protected CRUD operations for listings and reviews.
- **Tech Stack:** Node.js, Express.js, MongoDB, EJS, Passport.js, Cloudinary, Mapbox, Bootstrap.

Activities

HackWith Mumbai 2025 – BloodBank (Team CodeBite)

2025

Mumbai

- Built BloodBank, a real-time blood donation and matching platform using Socket.io and Leaflet.js.

Smart India Hackathon 2025 – SurakshaX (Team WolfPack)

2025

Disaster Management Theme

- Developed SurakshaX, a hazard reporting and analytics prototype using MERN stack.

Technical Club Member – Lokmanya Tilak College of Engineering

2023 – Present

Mumbai

- Participated in technical workshops and peer-learning sessions.

Certifications

MERN Stack Internship – Codec Technologies Pvt. Ltd.

2025

Completed a 1-month MERN stack internship in full-stack web development.

Java Programming (CRT) – Talent Battle

2024

Completed a 60-hour training covering Java OOPS and DSA.

CodeUnnati Centre of Excellence Program (SAP)

2024

CodeUnnati Centre of Excellence Program (SAP) Advanced course (3rd Year) and Value-added course (4th Year) with certification

Web Development & DSA – Sigma Batch (Apna College)

2024

Trained in full-stack web development and data structures.
